

Technical Datasheet

C08 TILE DRY VERGE

Product Details

The Kytun Tile Dry Verge System permanently secures tiles on gable ends and gives an attractive maintenance free finish to the roofline. It provides a neat, continuous and totally weatherproof finish to the gable. The pvc system is available in Black. Integral patented drip system channels water to the eaves. The components are manufactured from high grade powder coated Aluminium.

Product Features

- Provides full wind uplift and rain protection.
- Patented 'Drip System' which allows for self drainage of rain water into the gutter.
- Extremely easy and quick to install.
- Requires no maintenance once installed.
- Can be fully customised.
- Extensive range of colours available.

Compatibility

Fully compatible with most tiles on the market. Suitable for brick, render & bargeboard construction.

50mm Version: Suitable for a maximum individual tile thickness of 25mm.

65mm Version: Suitable for a maximum individual tile thickness of 32mm.
